## **Self – Introduction**

Benjamin Wee is a highly accomplished leader with career experience spanning across global supply chain and procurement management in food services, hospitality, tourism and the manufacturing industries. He has proven success in leading performance turnarounds and delivering measurable results for process and quality improvement, and redesigning initiatives.

He is currently a management consultant at Advance Supply Chain Solutions, offering consultancy and training services on sustainable procurement and digital supply chain. He believes in leadership that makes the difference. In fact, he played a pivotal role in implementing sustainable procurement process and initiatives, which led to his previous company in winning Top Achievement Awards for waste reduction. He is currently working with various organizations to promote sustainability standards and practices in Southeast Asia.

Benjamin specializes in digital supply chain and sustainable procurement training. He has delivered procurement and supply chain training for companies, local university, private education institutions and non-profit organizations in Singapore and Southeast/ South Asia region. He also provided consultancy services to hospitality, food services, medical device manufacturing and telecommunications companies.

Benjamin is a Singapore Certified Management Consultant (PSCMC), Chartered Procurement & Supply Professional – Fellow (FCIPS), GRI Certified Sustainability Professional, Certified Supply Chain Professional (CSCP) and Associate Adult Educator (AEP-AAE). He graduated with bachelor's degree in economics and diploma in electronic and computer engineering.
